

wizest

We would like to introduce you to Wizest, a new partner of the Cavs. As part of your benefits package, you are now eligible for a complimentary subscription to the Wizest app, a unique solution to help you save and invest!

Wizest, investing made simple:

Wizest makes investing easy and accessible for everyone. With Wizest, you can learn, save, invest, and start building wealth for your future with full transparency and no stress.

Wizest is a Cleveland-based company and partner of the Cavs, as you may have seen signages during the games or banners and postings in Social Media and our Cavs app. Also, Wizest has already started to host investing training sessions for our team members. The last one was on May 25th, and a new one will be scheduled later this year.

How it Works

Wizest provides access to Financial Experts with no minimum balance. You can pick Experts that are the best match for your situation and needs. Those experts are carefully curated and vetted. They will invest on your behalf, leveraging their own strategies. For the first year of this partnership with the Cavs, Team Members will see their monthly subscription fee fully waived.

Financial Literacy

Wizest is an unique financial wellness solution where you can save, invest and learn at the same time. Wizest Experts remove all the stress from investing. Compared to other investing or trading solutions, Wizest Experts explain their strategies and the changes they make, comment on the stock market, and provide guidance about investing in a personalized news feed.

At Wizest, transparency and education are key. Users are always aware of how their money is being invested.

Wizest Presentation:

How to get started:

In order to benefit from the complimentary subscription, please make sure to register with your work email and use the promo code CAVS.
